

BOTANICAL NAME	COMMON NAME	MAX HT	SPREAD	DIAMETER	GROWTH	COMMENTS
<i>Arundinaria pygmaea</i>	Pygmy Bamboo	2 ft		0.125"	running	evergreen
<i>Bambusa multiplex</i> 'Alphonse Karr'	Alphonse Karr Bamboo	25-35 ft		1.5"	clumping	evergreen
<i>Bambusa multiplex</i> 'Golden Goddess'	Golden Goddess Bamboo	10-15 ft		0.5"	clumping	evergreen
<i>Bambusa oldhamii</i>	Giant Timber Bamboo	55 ft		15"	clumping	full sun, low water needs
<i>Borinda angustissima</i>		12-20 ft		0.5"	clumping	prefers some afternoon shade
<i>Borinda boliana</i>	Bolian Bamboo	30 ft		2 "	clumping	evergreen, canes are shades of burgundy and purple
<i>Chusquea culeo</i>		20 ft		1"	clumping	evergreen, exceptionally wind hardy, sun or shade
<i>Fargesia dracocephala</i>	Dragons Head Bamboo	9-15 ft		0.5"	clumping	evergreen, protect from afternoon sun, weeping form
<i>Fargesia murielae</i>	Umbrella Bamboo	12 ft		0.5"	clumping	evergreen, needs partial shade, weeping habit
<i>Fargesia nitida</i>	Fountain Bamboo	15 ft	5 ft	0.8"	clumping	evergreen, needs partial shade, slow grower, high water needs
<i>Fargesia robusta</i>		16-20 ft		1"	clumping	evergreen, needs partial shade, erect habit
<i>Fargesia rufa</i>		8 ft		0.5"	clumping	evergreen, needs partial shade
<i>Fargesia utilis</i>		13-18 ft		0.75"	clumping	evergreen, needs partial shade, weeping habit
<i>Phyllostachys atrovaginata</i>	Incense Bamboo	35 ft		3"	running	excellent for wet conditions, vigorous
<i>Phyllostachys aurea</i>	Golden Bamboo	15-20 ft		up to 1.5"	running	grows rigidly upright
<i>Phyllostachys aurea</i> 'Holo-chrysa'	Golden Golden Bamboo	15-20 ft		1.25"	running	makes a wonderful privacy screen
<i>Phyllostachys aurea</i> 'Koi'	Golden Koi Bamboo	15-20 ft		1"	running	evergreen, distorted stems
<i>Phyllostachys aureosulcata</i>	Golden Groove Bamboo	to 26 ft		up to 1.5"	running	very hardy, grows rigidly upright
<i>Phyllostachys aureosulcata alata</i>	Crookstem Bamboo	30 ft		2"	running	similar to the above, zigzag kinked culms
<i>Phyllostachys aureosulcata</i> 'Harbin Inverse'	Harbin Inverse Bamboo	15-25 ft		1.5"	running	semi-evergreen, young shoots are reddish color
<i>Phyllostachys aureosulcata</i> 'Spectabilis'	Spectabilis Yellow-Groove Bamboo	20 ft		2"	running	
<i>Phyllostachys bambusoides</i>	Giant Timber Bamboo	70 ft		6"	running	large, straight, thick walled culms
<i>Phyllostachys bambusoides</i> 'Castillonis'	Castillon Bamboo	35 ft		up to 2"	running	full sun
<i>Phyllostachys decora</i>	Beautiful Bamboo	25 ft		1.5"	running	one of the best bamboos for a tall, dense screen
<i>Phyllostachys dulcis</i>	Sweetshoot Bamboo	40 ft		3"	running	vigorous, edible shoots, sun
<i>Phyllostachys edulis</i> 'MOSO'	MOSO Bamboo	75 ft		7"	running	vigorous, mature height unknown in NW
<i>Phyllostachys heteroclada</i>	Water Bamboo	20 ft		1"	running	vigorous, evergreen, ideal for a wet boggy site
<i>Phyllostachys makinoi</i>	Kei-chiku Bamboo	60 ft		2"	running	a giant bamboo, new growth is bluish-green
<i>Phyllostachys nigra</i>	Black Bamboo	20-30 ft		up to 2"	running	light shade - new culms mature to black in 6-12 months
<i>Phyllostachys nigra</i> 'Bory'	Bory Black Bamboo	50 ft		3"	running	
<i>Phyllostachys nigra</i> 'Hale'	Hale Black Bamboo	20 ft		1.5"	running	semi-deciduous
<i>Phyllostachys nigra</i> henon	Henon Black Bamboo	50 ft		4.5"	running	one of the largest in Pacific NW. Great tasting shoots
<i>Phyllostachys nigra</i> 'Megurochiku'	Megurochiku Bamboo	50 ft		3.5"	running	evergreen, strong grower, drought tolerant
<i>Phyllostachys nuda</i>	Green Bamboo	30 ft		1.75"	running	reputed to be the most hardy species in the genus
<i>Phyllostachys rubromarginata</i>	Red Margin Bamboo	55 ft		3"	running	evergreen
<i>Phyllostachys vivax</i>	Vivax Bamboo	70 ft		5"	running	fast to establish striking good looks
<i>Phyllostachys vivax aureocaulis</i>	Golden Vivax Bamboo	40-50 ft		3-5"	running	beautiful culms with random green stripes, fast growing!
<i>Pleioblastus distichus</i>	Dwarf Fernleaf Bamboo	2 ft		0.8"	running	good groundcover, a very small bamboo
<i>Pleioblastus fortunei</i> (variegated)	Dwarf Whitestripe Bamboo	2-4 ft	4 ft	0.25"	running	evergreen, leaves are 6" long and variegated
<i>Pleioblastus viridistriatus</i>	Gold-variegated Dwarf Bamboo	5 ft	5 ft	0.25"	running	short-running rhizomes, shear in winter
<i>Pseudosasa japonica</i>	Japanese Arrow Bamboo	18 ft		1"	running	good for a screen or in tubs - inside or outside
<i>Qiongzhueta tumidissinoda</i>	Chinese Walking Stick Bamboo	20 ft		1.25"	running	a weeping habit with lacy foliage
<i>Sasaella masamuniana albostrata</i>	White Striped Sasaella Bamboo	2-3 ft		0.25"	running	partial shade - holds variegation year round
<i>Semiarundinaria fastuosa</i>	Red Fastuosa Bamboo	20 ft		1.5"	running	good hedge plant - stiffly erect habit
<i>Shibataea</i> 'Kumasaca'	Kumasaca Dwarf Bamboo	2-5ft	2 ft	0.25"	clumping	evergreen, needs partial shade
<i>Thamnocalamus tessellates</i>	Bergbamboes Bamboo	16 ft		1"	clumping	very sun & wind tolerant, upright habit
