

PLANTS FOR DRY AREAS

Farmington Gardens 21815 SW Farmington Rd, Beaverton 503.649.4568 www.farmingtongardens.com

These plants are all tolerant of dry conditions **once established**. The trees, shrubs, and the majority of the perennials will need extra water for the first year to get established. The annuals on the list will need watering regularly for a while in spring to get a good start.
